

Y8150A Fresh Air Ventilation System

The best choice in affordable ventilation solutions

Honeywell's Y8150A Fresh Air Ventilation System is designed for easy installation and works with existing HVAC fan systems. It's an affordable solution to ventilation, yet it offers best-in-class benefits. Now you can deliver to homeowners optimal ventilation for improved indoor air quality at a profitable price point.

The Y8150A helps meet local and federal codes, including the new ASHRAE 62.2 standard. The intelligent algorithm calculates the amount of ventilation needed based on simple settings for each home. This "set it and forget it" program means fewer call-backs for you and optimal ventilation for the homeowner. Honeywell's Y8150A is the best solution for your low-cost ventilation needs.

Y8150A Fresh Air Ventilation System

An Innovative Solution at an Innovative Price.

Low Total Installed Cost

Y8150A works with the existing HVAC system. Installation requires only the included EARD-6 Damper, transformer and control.

Easy To Wire

in any orientation using a standard #2 philips screwdriver.

Meets Many Ventilation Codes and Standards

including the new ASHRAE 62.2.

Helps Eliminate Homeowner Interaction

— settings are protected from non-professional installers and nuisance call-backs.

Affordable Price Point

makes installation easy and profitable.

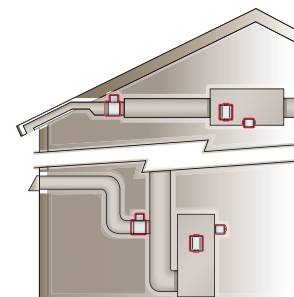

Test Button lets you know if the ventilation rate meets the required standard for the home.

Easy Customization of Ventilation Rate — just dial in the home's square footage, airflow and number of bedrooms and the control's intelligent algorithm calculates the required ventilation.

The American Lung Association and its Health House program do not endorse products.

Typical installation locations

Honeywell

Automation and Control Solutions

In the US: Honeywell, 1985 Douglas Drive North, Golden Valley, MN 55422-3992

In Canada: Honeywell Limited, 35 Dynamic Drive, Toronto, Ontario M1V 4Z9
